

Data Lifecycle Management

It's what we do!

For 40 years, DataSpan has taken care of its customers' data lifecycle management needs. We take our job, and your data very seriously. **Ours is a heritage of responsiveness, quality and trust.**

At DataSpan, we help customers meet compliance in data retention and protection while reducing the clutter in their data center.

We help customers improve performance and save money by keeping the data center energy efficient, optimally managed and environmentally clean.

We help our customers improve response time to their customers and help them reduce shrinkage, waste and losses.

Our customers enjoy peace of mind with our new/legacy storage media products and our storage migration/management services.

Partners of choice with over 50 Global IT & Technology Manufacturers like HP, Dell, IBM, Emerson, Sony, Fuji, Schneider.
